

# CARLE OUTPATIENT SERVICES AT THE FIELDS

80,000 SQUARE SPECIALTY CLINIC

**LOCATION** Champaign, Illinois

**SIZE** 80,000 sf

Carle At The Fields is a new 200-acre development located in southwest Champaign, Illinois, built to accommodate the area's growing population and consolidate various Carle and Health Alliance administrative and support functions.

Eckenhoff Saunders was the design architect and architect of record to develop the 80,000 sf outpatient services building at The Fields. The team provided planning, programming, and interior design services.

The building features dedicated patient/family drop-off and waiting areas, while staff enters from separate parking areas to avoid circulation conflicts. The specialty clinic building is dedicated to Carle's eye care, audiology, ENT, oral and maxillofacial care, and plastics programs.
