

JONATHAN CROOKHAM

ARCHITECTURAL DESIGNER

EDUCATION

Master of Architecture,
University of Kansas
University Scholar, Honors College

Jonathan is passionate about creating harmonious healthcare environments by expressing innovative ideas at all scales of design. While at Eckenhoff Saunders, Jonathan has been assigned the complex task of integrating eight new surgical operating suites with recovery space onto the roof of an existing, functioning hospital.

He is continually seeking to utilize technology to enhance processes and create organizational efficiencies that maximize the client's utilization of the finished space. Jonathan is technically adept at diagramming, sketching, space planning, and advanced modeling and is proficient in Revit, AutoCAD, Sketchup, Lumion, Rhino Enscape Rendering/VR, Grasshopper, and Bluebeam.
