

DULY HEALTH AND CARE - RICKERT DRIVE CLINIC

MEDICAL OFFICE BUILDING EXPANSION

CLIENT Duly Health and Care | **LOCATION** Naperville, Illinois | **SIZE** 20,000 sf

PROJECT SCOPE

One of the most prominent independent physician groups in the Chicago metropolitan area, Duly Health and Care, expanded its regional operations to accommodate many patients. The facility includes a new immediate care center, allergy, asthma and immunology, internal medicine, obstetrics and gynecology and pediatrics, breast screening, hearing & audiology, lab services, ophthalmology, otolaryngology, radiology, and sleep services.

Duly Health and Care retained Eckenhoff Saunders for architectural and interior design services to develop a two-story, 20,000 sf addition to an existing medical office building in Naperville, Illinois. Eckenhoff Saunders led the design process for the building's new interiors and shell expansion. The firm also renovated the building's existing interiors as part of the expansion process. The firm's scope of work consisted of schematic design, design development, contract documentation, permitting, bid assistance, and construction administration. Eckenhoff Saunders completed the project under the owner's budget and within the 10-month timeframe for construction.
