

## DULY HEALTH AND CARE - LISLE

MEDICAL OFFICE BUILDING

**CLIENT** Duly Health and Care | **LOCATION** Lisle, Illinois | **SIZE** 3-story, 95,000 sf

### PROJECT SCOPE

Eckenhoff Saunders developed this 95,000 sf multi-functional outpatient healthcare facility on approximately 7 acres of property adjacent to a major thoroughfare in the western suburbs of Chicago. The sloping property allows multiple level entries for easy access to various services. The three-level building was designed with an interior atrium dividing the building into two elements. One contains a 40,000 sf comprehensive Cancer Care Center, while the other has various outpatient services such as Diagnostic Imaging, Immediate Care, Primary Care, and Specialty Clinics. Each function complements the others.

The elements of this contemporary design express a sense of cutting-edge technology while balancing the warmth and light of soft materials and abundant natural light to the interior spaces. Duly Health and Care (formerly DuPage Medical Group) teamed with Rush University Medical Center to provide state-of-the-art medical oncology services for DuPage County. A complete line of oncology services includes radiation therapy, medical oncology, chemotherapy, and alternative medicine services. In addition, the atrium serves as the central circulation hub for over 15 practice groups, medical labs; physical therapy; and complete diagnostic imaging, including MRI, CT, and X-ray.
