

ERIE FAMILY HEALTH CENTERS - EVANSTON-SKOKIE

MEDICAL CLINIC RENOVATION AND EXPANSION FOR COMMUNITY-BASED HEALTHCARE ORGANIZATION

CLIENT Erie Family Health Centers | **LOCATION** Evanston, Illinois | **SIZE** 10,000 sf

PROJECT SCOPE

Erie Family Health is a nonprofit community health center providing income-based care for families of Evanston and Skokie. Eckenhoff Saunders was selected to design the 10,000 sf expansion space for their existing facility to address the current healthcare demands. The new space includes additional exam rooms, a dental operator, support spaces, and a community room to increase their adolescent and senior clientele. Our team punched openings into the existing masonry bearing wall at each exam room corridor to extend the treatment area.

The wall's strong axis with the new decorative curved ceiling feature on either side of the wall bridges the old care team area with the latest care team area. It also ties in a familiar design feature at the existing entry reception desk. Eckenhoff Saunders developed an efficient and economical design solution to meet the client's needs.
