NCARB (Illinois, Indiana, Wisconsin)

CSI - Certified Construction Specifier

LEED Accredited Professional

PROFESSIONAL AFFILIATIONS

American Institute of Architects Member

Construction Specifications Institute Member and Past President, Illinois Chapter

Alan brings 25 years of project experience to his oversight of Eckenhoff Saunders' Quality Assurance and Quality Control (QA/QC) program, which conducts and arranges for detailed reviews of every project at milestones of development and again before bidding. As head of specifications, he helps project teams address design and technical challenges proactively.

Before his QA/QC role, Alan managed the municipal approval process for the multi-phased, \$70 million implementation of Glenbrook Hospital's masterplan. This project's components included a new 174,000 sf Ambulatory Care Center, expansions of radiology, emergency, central plant, parking lots, and extensive site work. Alan also worked on a 30,000 sf vertical expansion of UChicago Medicine Ingalls - Flossmoor Family Care Center.

Carle Health System

- Champaign, Illinois
- Ambulatory Surgery Center
